Tunica Air Group
ATTN: MR. MIKE SILVIUS
211 South Airport Blvd.
PO Box 1634
Tunica, MS 38676

Dear Mr. Silvius,

It seems a rare event these days when I can take time out of my day to sit down and write a letter commending great service. Today is one of those days.

Recently we had a trip to Memphis where we were picking up a family who has been at St. Jude's Hospital with their young son since before Thanksgiving. This was to be his first visit home and he was so excited as there were yet to be opened Christmas gifts waiting for him, namely a new puppy named "lucky." He's in a tremendous battle with Leukemia, so this was a trip that had to be completed!

Shortly after arrival our nose strut became flat. With the help of the CSR at Signature, we got Mike Liffin on the phone and in short order, he came over and began developing his plan.

Soon after, he and Mike Silvius began working on the plane in a hangar that couldn't have been above 30 degrees. I was at the plane the entire time and was impressed with their workmanship and teamwork. We were only a few hours late on our original departure time and the rest of the trip went very well, delivering a young boy back home to a puppy wagging it's tail by the plane as they stepped off the aircraft.

Neither Mike knew of my passengers and the urgency I had in getting these folks back home. For all they knew, I was late for dinner with my family. Somehow, I don't think the reason would have made any difference to them. They worked with utmost professionalism, ensuring we were able to continue our trip that evening. Then, to my complete surprise, when looking at the business cards for an address

Morris Communications Corporation

to send this letter, none other than Mike Silvius, the President and CEO of Tunica Air Group had been there with Mike Luffin to work on my plane!

I will highly recommend Tunica Air Group to anyone who asks. Both Mike's were more than willing to stay late, on a Friday evening no less, and ensure we were fixed and able to continue our trip. So often in the service industry we only hear or talk about the negatives. It is truly a pleasure to highlight such a positive, professional experience!

Please know that you not only made a difference in the day to day operations of this flight department, but also with a family who very much needed a short break from St. Jude's to be able to spend a few days at home.

Sincerely,

Nate Portinga

Chief Pilot
